EYE CREAMS

FORMULATIONS

SAPACTI

SOUTH AFRICAN PERFUMERY & COSMETICS TRAINING INSTITUTE
CAREERS THAT MATTER

Our eye cream
formulation course is
designed to equip
you with the
knowledge and skills
to create high-
performance eye
creams that meet
international
standards

- Eye Cream Formulation Basics: Understanding the skin around the eyes, common eye cream ingredients, and their functions
- Key Ingredients: Learning about peptides, caffeine, hyaluronic acid, and other essential ingredients for effective eye creams
- Formulation Techniques: Mastering techniques for creating stable, gentle, and effective eye cream formulations
- Product Development: Creating customized eye creams for different skin types and concerns
- Regulatory Compliance: Understanding global regulatory standards and labeling requirements

As part of the course, you'll receive:

- One-on-one video call guidance: A specialist will guide you in making your first batch
- Starter kit: Get hands-on experience with essential ingredients and materials
- Certificate of completion: Showcase your expertise in eye cream formulation
- Lifetime access to course materials: Refer back to the lessons anytime
- Branding and retail guide: Launch your products with confidence
- Packaging suppliers list: Source high-quality materials for your products
- Raw materials suppliers list: Access trusted suppliers for your formulation needs

You'll be able to create a variety of eye cream products, including:

- Hydrating eye creams: Quenching the delicate skin around the eyes
- Anti-aging eye creams: Targeting fine lines, wrinkles, and puffiness
- Brightening eye creams: Reducing dark circles and evening skin tone

With skills in formulating eye creams, you'll unlock exciting career opportunities in the cosmetics and skincare industry. Here are some potential career paths:

- **Eye Cream Formulator:** Develop innovative eye cream products for top brands, focusing on addressing specific skin concerns like dark circles, puffiness, or fine lines.
- **Cosmetic Chemist:** Create and test various skincare products, including eye creams, moisturizers, and serums.
- **Product Development Manager:** Oversee the creation and launch of new eye cream products, working with cross-functional teams to ensure successful market entry.
- **Regulatory Affairs Specialist:** Ensure compliance with regulatory requirements, labeling, and testing standards for eye cream products.
- **Skincare Consultant:** Share expertise with clients, providing personalized skincare advice and product recommendations.
